

Kaitra Becker

Catholic Schools have been an important part of my life for as long as I can remember. I am proud to have been educated at Port Catholic, where my mother taught for almost 20 years. Little did I know that those afternoons helping in her classroom would be preparing me for my future. I have a degree in History from UW-Milwaukee and received my teaching certification from Cardinal Stritch University. I began my career teaching 4th grade Port Catholic. My journey has since led me to St. Rafael to teach K4 and St. Robert to teach kindergarten.

My passion is creating a welcoming and safe classroom family where each child is celebrated and encouraged with caring guidance and support. I am dedicated to teaching in an environment filled with positivity and rich experiences where each child flourishes and achieves high expectations. Every day in the classroom brings excitement and blessings.

I love spending time with my family, especially going on adventures with my nephew and niece. Some of the things I enjoy include spoiling my dogs, baking, jigsaw puzzles and reading. Spending time in nature is important to me, and I am even a big fan of our Wisconsin winters. I am so thankful and pleased to be a part of the St. John XXIII family.
