

ANNA PENKWITZ
3RD & 4TH GRADE MATH/SCIENCE

After spending Spring 2019 as a long term sub at St. John XXIII, I am excited to spend my first full year here working with the third and fourth grade students with math and science.

As a lifelong resident of Port Washington, it is exciting to teach in the community that I was raised. I received my elementary-middle education degree with a minor in English as a Second Language (ESL) from Madison based, Edgewood College. In my freetime I enjoy spending time with family and friends and traveling.
